

FISHING SERVICES

Ranger Fishing Services offers one of the largest selections of fishing and rental tools for cased-hole, open-hole, casing exits, and thru-tubing interventions along with unparalleled regional expertise and responsiveness. Ranger removes wellbore obstructions safely and efficiently, reducing the cost associated with wellbore problems, and provides innovative solutions to move your operations forward.

Ranger comprehensive solutions simplify logistics, maximize operational efficiency, and minimize downtime. Ranger personnel provide fishing services in an efficient and safe manner with the highest quality, health, safety, and environmental standards.

WHY CHOOSE RANGER FISHING?

- **Experienced & highly qualified team**
- **State-of-the-art equipment**
- **High performance culture**
- **Robust, behavior based QHSE management system**
- **Continuous improvement program**
- **Innovative technology development**
- **Technical solutions for today's complex wells**

EQUIPMENT

Our state-of-the-art inventory of ancillary rentals meet API standards and are maintained via a structured program to safely meet your well service requirements.

PERSONNEL

Our experienced fishing supervisors can safely and effectively operate in all situations. We provide our personnel with specialized classroom training including well control to build proficiency in the latest techniques and QHSE procedures.

QHSE

Ranger employs a robust behavior based HSE Management System and a QMS that aligns with API Q2 specifications including supplemental standard operating procedures.
