

# PrimeKut™ Casing Departure System

## Single Trip Mechanical Specifications

### Product Information

Field proven casing exit system with selective options of anchors, window mills, retrieval tools so you can access all areas of your pay zone quickly efficiently and risk free. The PrimeKut system is your one solution providing you the flexibility you need for any sidetracking application.

#### ▶ Slide Configuration

Available in any degree, the prime kut slide system is a combo slide which can be converted and adapted for multiple applications two trip, single trip, hydraulic, packer, hinged and open hole.

#### ▶ Selective Milling BHAs's

Reliable milling BHA configurations are available to choose from. 24/7 Engineering support & software standing by to help provide the ideal option for an efficient and optimized window milling performance low side, high side or dog leg severity.

#### ▶ Selective Cutting Structures

Selective cutting structures are available for soft, medium-hard & hard formations. Each mill is dressed application-specific with a portfolio of variety of shapes and styles to provide the ideal balance of toughness, sharpness & longevity.

#### ▶ Retrievable Mechanical Anchor Assembly

The mechanical set system is actuated via bridge plug or junk in the well bore. With engineered shear screw pins and application specific the anchor releases. The bidirectional carbide button slips engage into the casing securing the system in place to begin the milling phase.

## WHY CHOOSE RANGER FISHING?

- Experienced & highly qualified team
- State-of-the-art equipment
- High performance culture
- Robust, behavior based QHSE management system
- Continuous improvement program
- Innovative technology development
- Technical solutions for today's complex wells

## LOCATIONS

We have numerous locations in the USA
